AMALGAMATED ELECTRIC CORPORATION LIMITED

TO THE SHAREHOLDERS:

Your Directors have pleasure in submitting their report on the operations of your Company and its subsidiaries for the year ended December 31st, 1935, together with Consolidated Balance Sheet as of that date and Consolidated Profit and Loss Account and Deficit Account.

You will note your Company shows an operating profit of \$42,775.25 before the application of depreciation and other charges in accordance with the Companies Act, resulting in a net loss for the year of \$16,604.60 which is a considerable improvement in operations over the last few years.

It has been the endeavor of your management to reduce the expenses commensurate with low volume of sales and it is with pleasure that they inform you that during the last four months of 1935 your Company has shown an operating profit. Whereas there has been an increase in sales during these four months the sales were considerably below the sales that were necessary for an operating profit in previous years.

The executives' salaries shown in the Profit and Loss Account represent the salaries of five executives. No Directors' fees were paid.

During the fiscal year an additional 342 shares of your preferred stock was purchased for redemption and cancellation, this resulting in a credit of \$12,025.60 to Capital Surplus Account.

Your Company was incorporated in March, 1929. Since then \$321,003.81 has been charged to depreciation account, thereby writing down your fixed assets to \$546,554.89. Collections have been very satisfactory during the past year and ample reserve has been set up against bad debts. In the opinion of your management there is adequate reserve against any possible loss on your inventory through obsolescence.

Your Company continues to enjoy a strong cash position and so will be able to take advantage of any future expansion in business. Net working capital stands at \$467,845. with the ratio of current assets to current liabilities 27 to 1.

You will note on your Balance Sheet an item "Unamortized Cost of Developing New Products". This covers charges in connection with the development and improvement of new products for your Company, the cost of which is amortized over a reasonable period of time. In the past the item has been included in Deferred Charges to Operations on the Balance Sheet.

In December Mr. M. P. Murphy was elected Vice President of your Company, effective January 1st, 1936, with headquarters in Toronto, from which centre future operations of your Company will be directed, with the accounting and operating departments functioning from there.

Meetings of your Board of Directors have been held monthly. The books of your Company have been audited regularly and the certificate of the Auditors appears herewith. Your plants have been well maintained with the usual depreciation charged thereto.

The present improvement in your Profit and Loss Account and the position of your Company has been largely brought about by the complete co-operation and efficient work of the officials and employees of the Company. Your Directors desire to record their full appreciation of that fact.

BY ORDER OF THE BOARD,

W. L. BAYER,
President.

AUDITORS' REPORT TO THE SHAREHOLDERS

We have audited the books and accounts of Amalgamated Electric Corporation Limited for the year ended 31st December 1935, and we have verified the Balance Sheets at the same date of its Wholly Owned Subsidiary Companies whose figures have been incorporated in the above Consolidated Balance Sheet and in the relative Consolidated Statements of Profit and Loss and Deficit and Capital Surplus. We have obtained all the information and explanations which we have required.

The Preferred Shares purchased for Redemption and Cancellation during the year must, in our opinion, be treated as reduction of Capital.

We report that, in our opinion, the above Consolidated Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Companies' affairs, according to the best of our information and the explanations given to us and as shown by the books of the Companies.
